COMPANY PROFILE

ABOUT CUBE

Cube is a 20 year old family business whose mission is to cultivate sincere commercial relationships with our clients, based on trust and mutual respect.

We are present in Italy, Algeria, Switzerland, Malta and St Maarten.

CUBE is an official distributor of KLEEMAN products for St Maarten and the Caribbean.

ABOUT CUBE

We strive to constantly improve our products and processes to bring our clients great service and value.

We achieve this through our highly skilled human resources and our use of the latest technologies.

Every customer, every building and every elevator installation is unique, which is why we customize every proposal to our customers' specifications.

Our expert technicians will take the time to speak to you and examine the unique specifications of the project to accurately scope, design and plan to deliver the best possible results. We'll ensure that the transition from design and planning to installation of a final product is seamless.

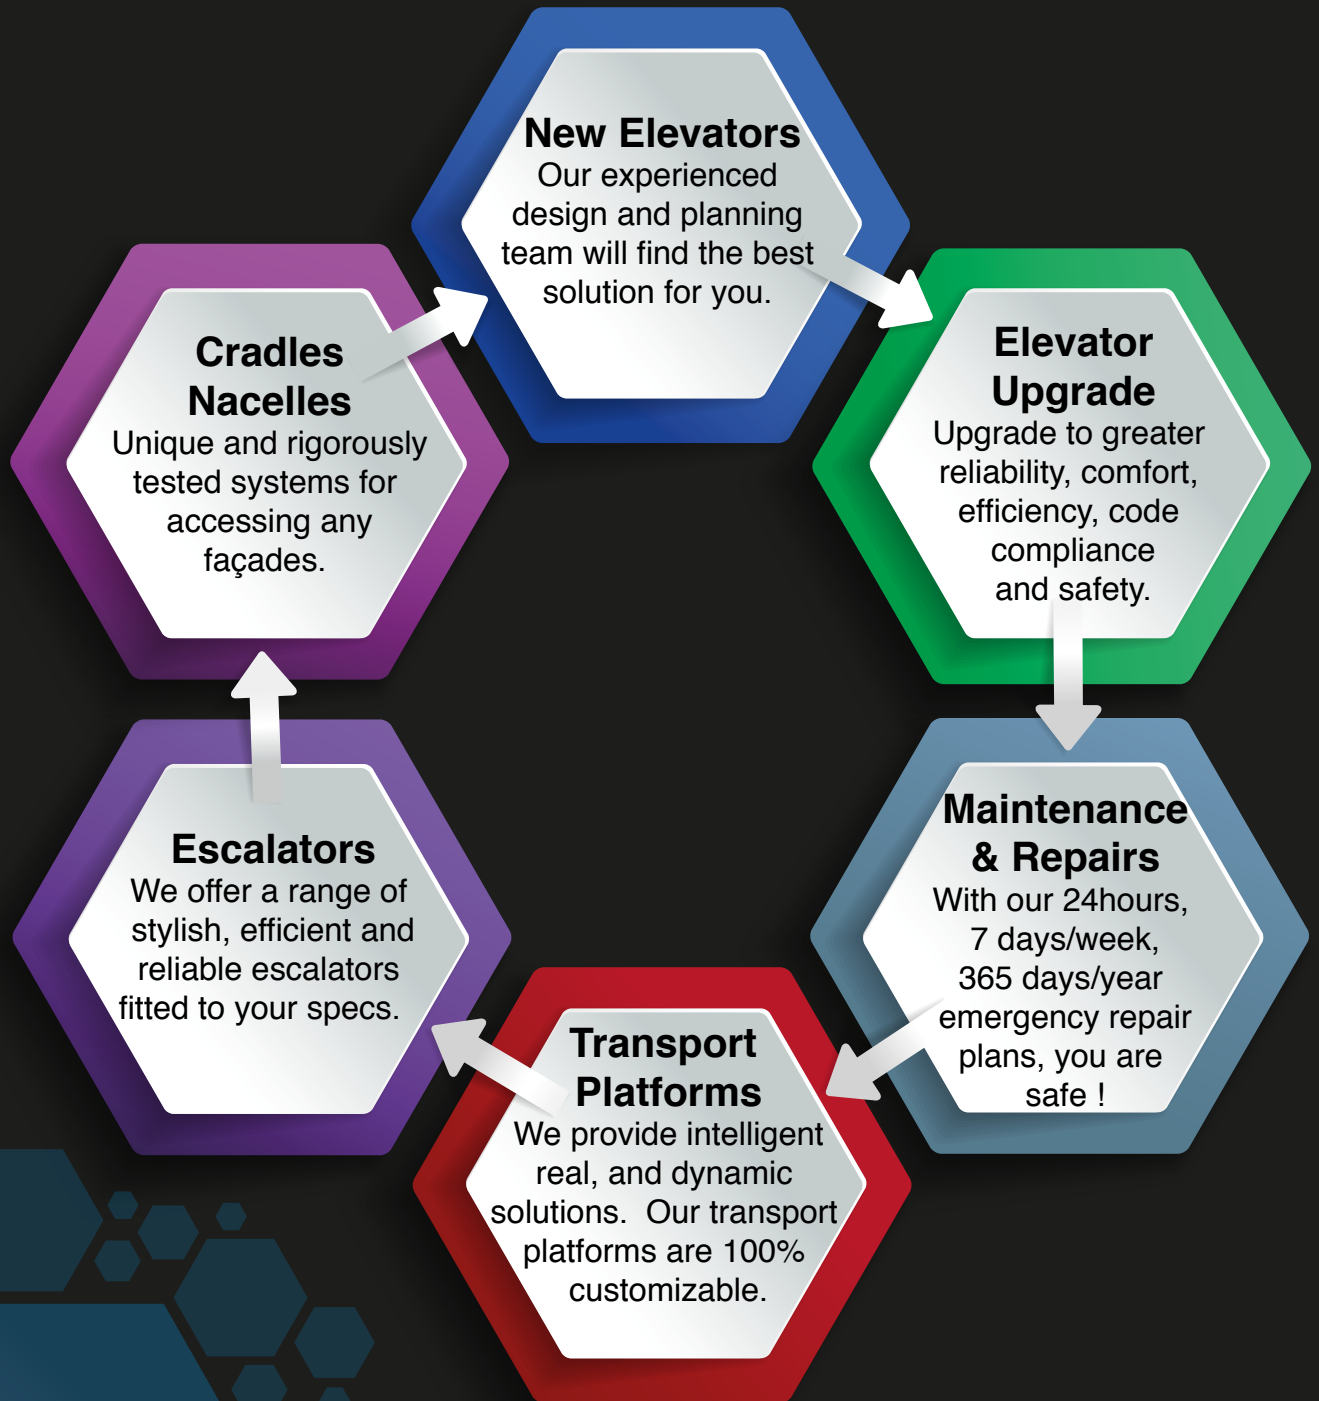

HOW WE WORK

A project management professional will guide you through the following stages:

- 1. Initial Contact:** From your first call, Cube will evaluate your needs and work closely with you to develop the best solution for your project.
- 2. Site Review:** Your Cube professional will meet with you on site and discuss what options and modifications best fits your needs and budget. A comprehensive proposal will then be presented for your acceptance.
- 3. Installation:** Your Cube professional will coordinate project timescales with you.
- 4. Commissioning:** Your Cube professional will perform a comprehensive audit to ensure a safe, reliable and quality product. Our relationship does not end after your product is installed and functioning, we will provide a complete system overview to ensure end user safety.
- 5. Maintenance:** Our elevator maintenance plans are specifically designed to keep systems running consistently by finding, diagnosing and fixing problems before they cause a shutdown. we offer maintenance according to your elevator on a 5-year contract.
- 6. Warranty & Service:** All cube products have a warranty of 12 to 24 months which is extensible at our client's request.

PRODUCTS & SERVICES

NEW PROJECTS - St Maarten

**Fourteen Towers
Mullet Bay**

FOURTEEN

4 lifts are being fitted with a capacity of 1500 kg and a speed of 2.5 meters/second.

The height is 22 floors with panoramic cabin and landing doors fitted with ultra modern systems and energy saving gearless motors, which produces runs at low speed and does not consume it. Fairfailing systems for firefighters.

GENERAL HOSPITAL

A project with various types of bed lifts and lifts for hospital use.

**New General Hospital
of St Maarten**

PAST PROJECTS - St Maarten

OCEAN POINT

Was fitted with 3 elevators of between 4 to 6 floors in height and with a speed of 1 meter/second and a capacity of 1000 Kg each.

**Ocean Point
Sonesta**

**Sky Tower
Sonesta**

SKY TOWER

The Sky Tower buildings were fitted with 5 elevators for these 10 floor buildings. The elevators have a speed of 1,6meters/second and a 2000 Kg capacity.

PAST PROJECTS - St Maarten

The Emerald

EMERALD

2 elevators were fitted in this 5 floor building with a speed of 1meter/second and a capacity of 1000kg. Space constraints meant fitting a maximum capacity in the cabin within minimal shaft spaces.

HOBBY HILL

2 elevators were fitted in this 5 floor building with a speed of 1meter/second. The elevators have a reduced pit depth of only 40cm which is ideal for location where pit digging is an issue.
